

FIELDWORK OBSERVATION HOURS

New York State Department of Education regulations require that students who are preparing to be New York State certified in areas of education need to complete a minimum of 100 field hours in addition to the culminating student teaching field placement. The Department of Health, Physical Education, and Movement Science has adopted the *Observation Record of Teaching form*. It is the student's obligation to utilize this record in accordance with the hours specified in various course syllabi (e.g. HED 260, HED 261, HED 262, PED 260, PED 261, PED 262, PED 263, etc.). **The original field observation record form must be submitted to the professor and will be kept in a permanent folder in the Department offices.**

Field Observation Hours Requirement

<u>Course</u>	<u>Hours</u>
Physical Education	
PED 261	40
PED 262	30
PED 263	30
<u>TOTAL</u>	<u>100</u>
PE with Health Concentration
